RE: RECOMMENDATION OF OKERE CITY

This serves to introduce to you Okere city which is a non-governmental organization formed in 2019. This organization has been working in Okere parish, Adwari sub-county for the last three years.

During this period the organization has been assisting our community members in the mentioned parish with;

- Mobilization and sensitizing community about improving their livelihood.
- Training community on improved income through savings
- Training community on psycho-social and economic transformation
- Carrying out training of community leaders on good administration, proper record keeping and financial management.
- Carrying out training of community on environment protection and management.

This organization has proved to be a very useful organization in the parish.

I therefore recommend it very highly for any assistance that it will be needed in this field.

Thank you,

Yours faithful,

.....
Odongo J.C
